Manufacturer: Mazak
Typ: VCN 430A
Year: 2023
Control: Mazatrol Smooth G
Location: Ebersbach (Germany)
Land of origin: Japan
Delivery time: By agreement
Freight basis: Ex works
Price: On request

Technical Details:

X – Axis travel distance	560	mm
Y – Axis travel distance	430	mm
Z – Axis travel distance	510	mm
Spindle Taper	40	SK
Spindle Speed	18.000	rpm
Spindle Motor	15	kW
Tool Magazine	40	Stations

Equipment:

- Air cooling through the rotating milling spindle
- HIGH LEVEL Production Package (LNS right); includes: air blow-off at the workpiece; high-pressure coolant supply through the spindle (15 bar); washdown system for the enclosure; chip conveyor, hinge belt (LNS MH 500), output right; preparation for Mazak Monitoring System B OMP60 (optical); synchronized tapping; max. program memory 8 Mb; rapid traverse with constant tilt angle during movement
- Coolant gun
- Renishaw Inspection Plus Software (including Set & Inspect & Reporter)
- Mazak Monitoring System B optical OMP60
- Mazak API
- MT Connect Adapter (software tool including one license)
- Drilling cycle with torque-dependent chip breaking
